# quietly elegant – where less is more

Clean, stylish, uninterrupted symmetry is the signature style of the minimal range. The secret lies in the integration of the unique soft45™ pull-edge doors with the premium cabinetry range. Together these two elements combine to create the timeless, elegant, handle-free look that will always be in demand.

## featuring seamless soft45™ doors and drawers

Advanced technology and market-leading New Zealand innovation delivers the continuous, subtly rounded soft45™ pull-edge in premium gloss and matt laminates. This all important seamless edge—superior to joined or mitred alternatives—eliminates dirt traps, and creates the ideal moisture proof barrier.

## the ultimate in handle-free design

The premium cabinetry range has been created from an extensive design program to showcase the minimal style. Sixty cabinets feature fully adjustable dimensions, integrated soft-close drawers, soft-close doors, colour-matched cabinet edging, and Lemans and Magic Corner solutions.

## ask for the best - European laminate on New Zealand made board

New Zealand makes the world's best low emission MDF board, sourced from our sustainable plantation forests. ultragloss and ultratouch laminates from Europe's most innovative supplier are PUR bonded onto the board by TDC Manufacturing -the pioneer of PUR Laminating in New Zealand. PUR bonding is the industry gold standard for moisture and heat resistance. The end result is a surface more durable and UV-resistant than paint or vinyl, ensuring complete peace of mind.
